

If Cinderella Had Only Known...

A Book of Self-Discovery for Men and Women

Do you know that “Alien Feeling”? With that is meant the feeling that Cinderella experienced, or perhaps you have felt when you find yourself once again feeling alone and foreign in your world. You have the impression that everything is against you and you feel like an “alien on planet earth”. The further you go in life, the more you find yourself in a vicious circle. And that is despite the fact that you do everything “right”. Perhaps you live in a family, are in a good relationship and even have a successful career; surrounded by people but still alone.

In her first book “If Cinderella had Only Known...- A Book of Self-Discovery for Men and Women”, Yurika Hayashi dedicates herself to this exact topic. With help from her holistic approach that “alien” can be pulled back into the here and now. Broaden your perspective with an exciting journey into yourself.

This book is available from Open Mind Publishers, in bookstores, or from amazon and costs 19.95€. The English version is available at the beginning of November 2009 and the French version is a work in progress.
